

Protect yourself & others

UF College of Dentistry

Patients

- If you are feeling influenza-like symptoms, please let us know.
- We are happy to reschedule your appointment for another time and encourage you to go home and rest.
- We also recommend that if you have any severe symptoms, you should contact your primary care provider.

UF College of Dentistry

Students, Faculty & Staff

- To protect yourself and those around you, please do not report for work/school if you are feeling influenza-like symptoms. If you have any severe symptoms, you should contact your primary care provider.

Coughing? Sneezing? Runny nose? Fever?

- Please wear a mask, use tissues and discard used tissues into trash. Clean hands after coughing or sneezing with alcohol gel or soap and water.
- If you need to use gel, masks or tissues, please ask a staff member.
